"Waterhouse Trust"

REAL ESTATE FOR SALE

Well, we have sold our College Hills bargain, advertised last week. Our bargains seem to take.

Here's a few more.

Two building lots in Manoa, \$2000 and \$950, respectively. Good soil, good elevation, and price and terms right.

At Kaimuki, on 12th avenue, we have four (4) of the best lots left. This is the locality that has an unrivaled view of Honolulu Harbor and the Waianae Mountains, and where the best residences in the tract have been built. These lots are cleared and improved. A bargain at \$3800.

"Waterhouse Trust"

Fort and Merchant Streets.

COLONISTS ARE TROUBLESOME

(Continued from Page One)

gone. Many went without seeking the good offices of the planters and as a result a number of them are camped out in the Ewa plantation park waiting to be put on the salary roll.

Many Tragic Queens.

The women who wanted to go to Ewa were very persistent. First their husbands asked to go to Ewa. They were turned down. They pleaded again, and then finding the planters obdurate, brought the women folks forward. They pleaded, fell upon their knees, cried, wailed, wept, grew hysterical and refused to budge from their position until the word was given that to Ewa they could go.

Mr. Meads states that it is the most difficult crowd he ever attempted to handle and he does not want to see its duplicate.

Fifteen of the Portuguese are still held at the immigration station by R. C. Brown, inspector-in-charge, and these may be returned to the Portuguese islands as being undesirable. Some are said to be mentally deficient, others have diseases which bar them from entrance to the United States.

A number of the immigrants left for Maui last evening on the Claudine and some left for Kauai on the Hall. The crowd is rapidly dwindling away, but only about half who came have been sent out by the planters' association.

Heard From "Jack."

Secretary Savidge of the board of immigration heard from Jack Atkinson by the last steamer from Yokohama, the letter being dated from Yokohama. Mr. Atkinson states that he has hopes of raising a very large contingent of Russians for transportation to Honolulu.

From all reports that have reached Secretary Savidge, the Russians are doing well on the plantations to which they were assigned. Some have complained a little about the heat, but these complaints have been few in number and not uttered with any idea of criticizing their class of work.

Want to Skate.

Some of the Russians are said to have been a little disappointed because they found there would be no skating in Hawaii at any time of the year. It seems they asked Mr. Atkinson, when being recruited near Harbin, if there was any skating done here. Mr. Atkinson said jokingly that a lot of people here indulged in skates occasionally. When that joke is finally interpreted into Russian it may be laughed at, but some of the Russians profess not to like that sort of banter.

It is said that many of the Portuguese immigrants did not wish to sign up for any Hawaii plantations because of "rain and earthquakes." Coming from a section of the world in which a volcano has recently broken out and destroyed homes, they were a little chary of going to an island which has a real, live volcano.

THE VOLCANO.

Not in many years has the crater at Kilauea been as active as at present. The fires there kindle a desire for knowledge of a scientific nature, and as far as known, the book recently published by the Hawaiian Gazette Co., Ltd., entitled "Hawaii and Her Volcanoes," by Charles Hitchcock, LL.D., is the only one in existence that fully describes the phenomena. This book is on sale at the different book shops here, and is one that should be in every library. It is fully illustrated by engravings from photographs and sketches and is sold for \$2.00.

NEW USE FOR THIMBLE.

A clever young girl, who is full of ingenuity, has hit on a novel use for her thimble. She slips it on the end of a brass rod when she wishes to put the rod through the heading of a lace or muslin curtain. Every one of any experience with little such contrivances, or even longer ones which are run on a rod, knows that it is most bothersome to get the rod smoothly through, for the brass is apt to have a slight roughness from being cut, and usually catches in an annoying manner. Slip a thimble over the end, however, and it works like a charm, as any girl will agree who tries it.
